Dear Mr. McCarter,

After again apologizing for my typing, many thanks <sup>y</sup>o and to your lzb supervisor and to his people who went to some trouble to provide me with clear prints of Zapruder Frames 337 and 338. That they could not baffles me. I do not doubt that they did the best that could be done but at the same time I recall how sharp and clear those two frames were when projected onto a screen.

I also recall very clearly that they were the originals of those frames that were to have been made into black and whites for printing in Exhibit 885 and the FBI did not include them. I recall also that I think it was Marion Johnson who call<sup>ed</sup> me and invited me in to see them. They had been paced in the box that then held all the slides that were to be show<sup>N</sup>s. I was started at how bright and clear those two frames were. Sharp, too. I have the impression that I could see individual hairs on the President's head.

Perhaps I will be able to see <sup>W</sup>hat I did see in 1967 by projecting slides for Frames 336 and 337, or, as you indicate, 338<sup>be</sup>.

Let me go over again what I seek and what cannot<sup>be</sup> made out on the prints you sent.

Early in the nine frames the FBI withheld from Exhibit 885, I though the third and fourth of them, as the President is falling rapidly backward and then over into his wife, for two frames, which means only for a ninth of a second, the back of his head is clearly visible. I recall no other frames that give this view, and ~~with~~ now there is much controversy about it, with all sorts of wild things made up. One of those wild things is that he back of his head was blown out, as the Zapruder film makes clear it was not.

The frames I want are those that show the back of his head as he is falling rapidly to his left and onto his wife.

Being able to see that is what I want and I hope that your people can make that possible.

Please thank them for their efforts and for anything they may do. And think also who could have done any switching or anything else because my recollection is clear and because I told others.

Thanks and best wishes,  
*Harold Weisberg*
